PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in SQL, Power BI, Python and Excel, with practical experience in data cleaning, validation, exploratory analysis, visualization, dashboard development and business reporting. Experienced in working with real-world production and business datasets and developing data-driven insights.

TECHNICAL SKILLS

Data Analysis	Data Cleaning, Data Preprocessing, EDA, Data Validation, Data Visualization
Programming	SQL, Python
BI & Visualization	Power BI, Tableau, Excel
Power BI	Power Query, DAX, Data Modeling, Interactive Dashboards
Python Libraries	Pandas, NumPy, Matplotlib, Seaborn
Database	SQL

PROFESSIONAL EXPERIENCE

Data Analyst Intern | *ProWiz Analytics*

May 2026 – Aug 2026 | Haridwar, Uttarakhand

- Managed and validated production data for a Hindustan Unilever Limited (HUL) manufacturing project using the ProWiz CMS platform.
- Performed data cleaning, processing and quality checks to maintain data accuracy and reliability.
- Prepared reports and dashboards to monitor production metrics and operational performance.
- Collaborated with cross-functional teams to resolve data-quality issues and support workflow improvements.

AI Engineer Intern | *Qmansys Infosolutions LLP*

Jul 2025 – Oct 2025

- Developed an end-to-end AI/ML-based Career Guidance System from research and model development through product presentation.
- Conducted literature review, evaluated machine-learning algorithms, and trained, tested and optimized models using real-world data.
- Integrated the AI model with a GUI-based application and contributed to the final product launch.

Data Analysis Intern | *InVie Technologies Pvt. Ltd.*

Jun 2025 – Jul 2025

- Collected, cleaned and preprocessed raw datasets to improve data quality and consistency.
- Performed data analysis, created visualizations, and prepared structured reports for weekly reviews.

PROJECTS

AI-Powered Career Guidance System — *Python · Machine Learning · Flask · SQLite · Random Forest*

- Developed a career recommendation system using skills, interests, academic performance and subject preferences.
- Built a web-based application and achieved approximately 93% prediction accuracy using Random Forest.

Gurgaon Real Estate Market Analysis — *Python · Pandas · NumPy · Matplotlib · Seaborn*

- Cleaned and analyzed residential property listings to identify trends in prices, area, BHK configurations and builder performance.
- Performed EDA and created visualizations to identify location-wise pricing patterns and market dynamics.

Sales Analytics Dashboard — *Power BI · Power Query · DAX · Excel*

- Developed an end-to-end interactive dashboard with data cleaning, transformation, data modeling and DAX-based metrics.

Zepto Inventory & Vendor Performance Analysis — *SQL · Python · Power BI · Excel*

- Used SQL for data extraction and cleaning, Python for exploratory analysis, and Power BI to deliver actionable business insights.

EDUCATION

B.Tech — Computer Science & Engineering (AI & ML)

Raj Kumar Goel Institute of Technology, Ghaziabad | 2022 – 2026

CERTIFICATIONS

- Basic to Advanced SQL — Skill Nation
- Business Intelligence Using Power BI — Skill Nation
- Basic to Advanced Microsoft Excel — Skill Nation
- Basic to Advanced Tableau Dashboard Mastery — Skill Nation

PUBLICATION

AI-Powered Career Guidance System — Presented at BDDAAI-2026, International Conference on Bridging Domains Through Data Analytics and Artificial Intelligence.
